# COMPLETE JETTING SOLUTIONS

Specifying and selecting new jetting equipment requires a thorough evaluation of performance, efficiency, cost, installation, and maintenance, a process that is often highly time-intensive. By partnering with Andy Guest Jetters as a single-source solution, many contractors have discovered a streamlined, cost-effective approach to meet their complete jetting and vehicle requirements.

## A COST-EFFECTIVE OPTION FOR CONTRACTORS

*"We've been providing turnkey jetting solutions for several years and helping customers finance the complete package. That's everything, including vehicle finance, jetter supply and installation, vehicle customisations and after-sales services. This offers customers an affordable way to access the latest kit."*

**JON WOODS | ANDY GUEST JETTERS**

## SERVICING & REPAIR

Alongside jetting solutions, we provide a comprehensive range of after-sales services, including scheduled maintenance, annual servicing, and nationwide emergency repairs. All servicing work is carried out by approved technicians, who can provide diagnosis and effective solutions for mechanical and electrical issues.

Our fleet of mobile service vehicles operate nationwide, equipped with a full range of parts to service all jetter makes and models. Our service teams are fully equipped to repair all machine makes and models, offering comprehensiveness diagnosis and solutions.

### JETTER REFURBISHMENTS

In addition, we offer a full jetter refurbishment service, restoring older machines to their former glory. From mechanical overhauls to upgrades and chassis improvements, our technicians meticulously refurbish jettors to extend their working life, improve performance, and ensure reliability.

# VEHICLE CONVERSIONS

Lining & Flooring	Plastic, Chequer Plate, Plywood
Storage Solutions	Shelving, Cupboards, Pipe Storage
Lighting	LED Lights, Light Bars, Beacons
Inverters	Converting DC to AC
Welfare Equipment	First Aid Kits, Basins, Fire Extinguishers
Waterproofing	Spray-Lining + Bulk Head Installations
Heating	Night Heaters
Vehicle Signage	Graphics, Wrapping, Chevrons

Andy Guests' in-house vehicle conversion service delivers rapid turnaround for fully equipped, multipurpose drainage vehicles.

Vehicle conversions reflect our turnkey approach, focused on providing customers with complete drain jetting solutions. With each jetter installation tailored to requirements, our technicians carry out a broad range of interior and exterior vehicle enhancements alongside jetter installations.

## HIT THE GROUND RUNNING

Our standard van and jetter packages are fully equipped and ready for immediate use. With flexible finance options available, you can get to work quickly and with complete confidence.

# FINANCE YOUR NEW EQUIPMENT

Working with UK vehicle and asset finance specialists, we offer flexible and competitive equipment finance.

Finance packages spread the cost of essential equipment and can be arranged for standalone jetting equipment, the base van, vehicle customisations and a wide range of drainage tools and accessories.

Finance and payment options include:

- Hire Purchase or Lease Purchase
- Single monthly payment upfront
- VAT deferrals and zero deposits

## TRADE IN YOUR OLD JETTER

We accept trade-ins on Andy Guest machines and other manufacturers' jettors, offering competitive valuations, a hassle-free process, and an immediate upgrade, without the need to sell privately or scrap your equipment.

# SERIES 1

## VAN-PACK JETTER

**BUDGET-FRIENDLY.  
SPACE-SAVING.  
PERFORMANCE-DRIVEN.**

The Andy Guest Jetters Series 1 brings dependable performance in a compact, cost-effective van-mounted package. Powered by a robust 20hp Honda engine and delivering 2200psi at 10gpm, it's engineered for smooth, everyday operation. Perfect for new users and expanding fleets alike, the redesigned Series 1 combines proven reliability in a space-saving design. The ideal way to begin your jetting journey.

*"It's ideal for unblocking 4-inch drains and has nearly the same capability as larger machines but is much more economical."*

**METRO ROD (CHESTER)**

 **2200psi @ 10GPM**

- Honda GX630 V-Twin 20hp petrol engine
- Lightweight and compact footprint
- Lower fuel costs and emissions
- 5-Channel Radio Remote as standard
- Ideal for urban and residential work
- Fits most commercial vans with space to spare

### QUIET POWER

The Series 1 is powered by a Honda GX630 V-Twin engine, engineered to ensure reliable cold starts, low vibration, and quiet running, making it suited to everyday operations.

### COMPACT DESIGN

With a dry weight of only 280kg, the unit fits easily into smaller commercial vehicles. Its durable, space-saving design leaves more room in the van for tools and equipment.

### URBAN-FRIENDLY

Compliant with low-emission zones, the petrol engine meets strict standards, while delivering strong performance, ideal for operators working in urban areas.

**6** [andyguestjettters.co.uk](http://andyguestjettters.co.uk) | 03300 240404

### FLEXIBLE FINANCE

A range of finance options are available to help spread the cost of the jetter, the vehicle, interior conversions and additional equipment.

### REQUEST A QUOTE

Tel: 03300 240404 Email: [sales@andyguestjettters.co.uk](mailto:sales@andyguestjettters.co.uk)

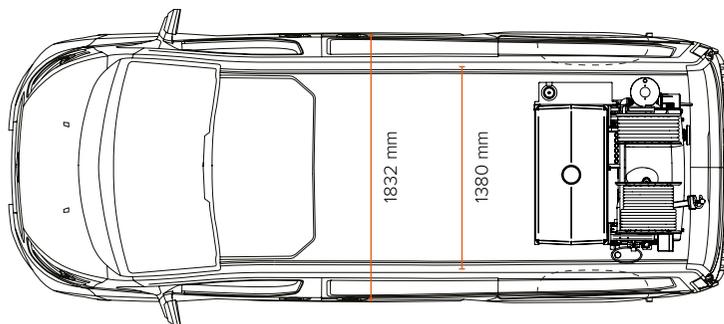

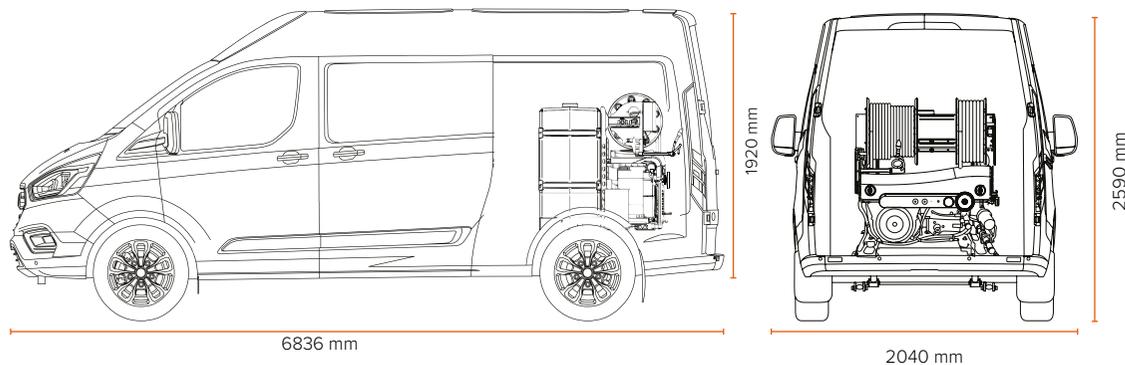

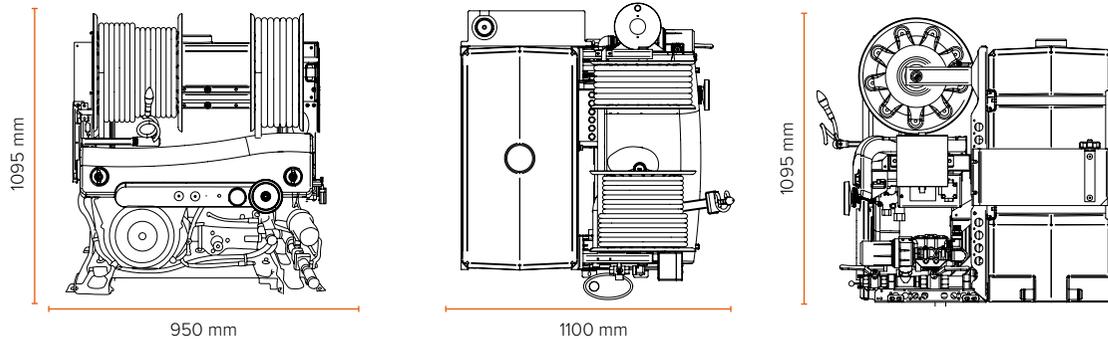

### READY-TO-WORK START SIMPLE.

Supplied as a complete system, the Series 1 comes with a jetting hose, 5-channel remote, and standard nozzles, so you can get to work straight away. Additional upgrades include larger water tanks, jetting lances, and specialist nozzle kits.

# SERIES 1 DIMENSIONS

## EXAMPLE VAN: FORD CUSTOM VAN L2H2

Width between Arches	1351 mm
Vehicle Length	5340 mm
Vehicle Height	2300 mm
Vehicle Width	1986 mm
Load Length	2921 mm
Load Height	1778 mm

# SERIES 1 SPECIFICATION

Pipework Diameter	< 250mm
Performance	2200psi @ 10gpm (150 bar / 45 lpm)
Water Tank Capacity	400 Litres (88 Gallons)
Engine	Honda 20hp Petrol
Pump	Triplex Plunger Pump
Run Dry Protection	Standard
HP Reel	Manual / 60m
Filling Hose	35m
Control Box	Manual/Engine
Included Accessories	Nozzle Kit
Approx. Dry Weight	280kg
Dimensions (mm)	1100mm D x 950mm W x 1095mm H
Warranty	12 Months (Terms and Conditions Apply)
Remote Control	5-Channel

## UPGRADES + OPTIONS

- Tank Capacity (650 or 800 Litres)
- Lightweight Jetting Hose
- Safety Lance + Dry Shut Lance
- Specialist Nozzle Kits
- Surface Cleaning Equipment

# SERIES 1+

## VAN-PACK JETTER

**MORE POWER.  
MORE FEATURES.  
MORE VALUE.**

The Series 1+ is built for operators who need more from their jetting machine, delivering strong performance in a compact, affordable package. Enhanced with performance options, a more powerful engine, an integrated pulsator, and the advanced eControl unit, it offers lasting durability, practical functionality, and the flexibility backed by trusted Andy Guest engineering.

### PERFORMANCE OPTIONS

The Series 1+ is available in two pump configurations to suit different operations.

 **3000psi @ 9gpm**  
 **2200psi @ 12gpm**

### DO MORE FOR LESS

- Honda 24hp petrol engine
- Integrated RioPulse pulsator
- 5-Channel Radio Remote as standard
- Lower fuel costs and emissions
- Smarter single-person operation
- Ideal for residential and light commercial work
- Fits most small-to-medium-sized vans

### EFFICIENT JETTING

The Series 1+ features an integrated RioPulse pulsator system that boosts jetting efficiency, improving cleaning power and maintaining strong performance over longer drain runs.

### SMARTER CONTROLS

With an electric reel, 5-channel remote and an intuitive eControl system, the Series 1+ offers intuitive control and a safer, more efficient single operation.

### URBAN-FRIENDLY

The 24hp petrol engine provides lower emissions and a quieter performance than diesel alternatives, ideal for use in residential, urban and Clean Air Zones (CAZ).

### FLEXIBLE FINANCE

A range of finance options are available to help spread the cost of the jetter, the vehicle, interior conversions and additional equipment.

### REQUEST A QUOTE

Tel: 03300 240404 Email: [sales@andyguestjetters.co.uk](mailto:sales@andyguestjetters.co.uk)

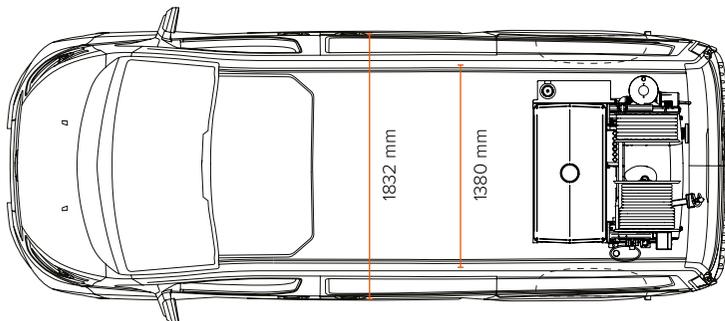

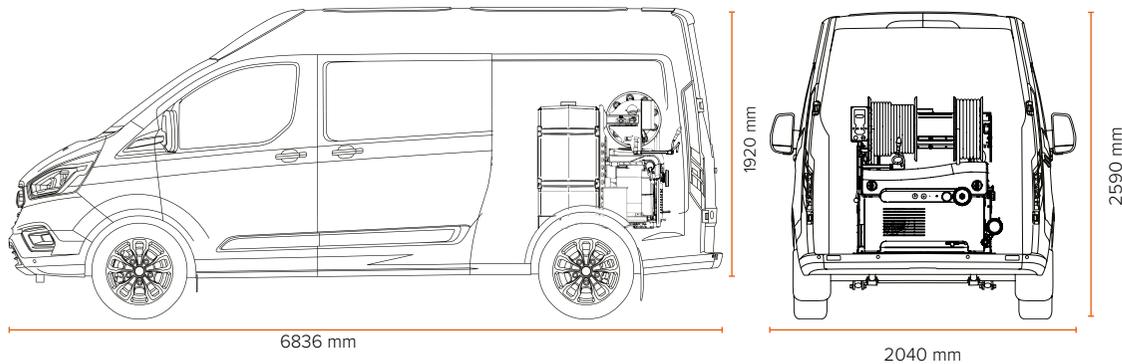

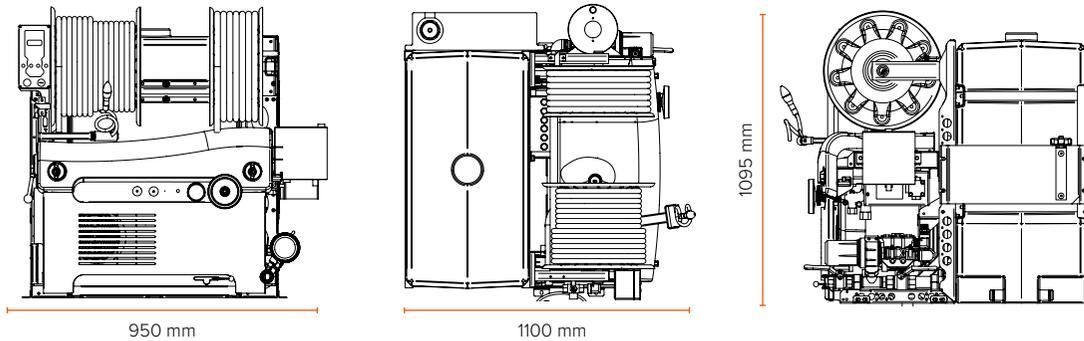

### READY-TO-WORK POWER UP.

Supplied as a complete system, the Series 1+ comes with pressure and flow options, integrated hoses, eControl, a 5-channel remote, and standard nozzles, so you can get to work straight away. Additional upgrades include larger water tanks, jetting lances, and specialist nozzle kits to match your workflow.

- Tank Capacity (650 or 800 Litres)
- Safety Lance and Dry Shut Lance
- Specialist Nozzle Kits
- Surface Cleaning Equipment

# SERIES 2 VAN-PACK JETTER

**POWERFUL DIESEL.  
LONGER REACH.  
COMPACT BUILD.**

The Series 2 is an affordable, dependable diesel jetting machine built to handle routine drain cleaning with ease. Powered by a best-in-class Kubota diesel engine, it delivers 3000psi at 9gpm, tackling pipes up to 300mm. Its compact design fits most small commercial vehicles while leaving room for tools, making it ideal for contractors needing reliable, space-saving performance.

*"The Series 2 has proven to be very reliable. It's powerful and has cleared all the blockages that I've encountered."*

HU12 GROUP

**3000PSI @ 9GPM**

- Kubota D902 24hp diesel engine
- Hydraulic 80m HP reel
- Reduced fuel usage and emissions
- 7-Channel Remote Control as standard
- Ideal for commercial work
- Fits most small-to-medium-sized vans

POWERED BY  
**Kubota**

## REACH FURTHER

An 80m jetting hose provides extended reach for longer drain runs, while enhanced pressure and flow deliver stronger cleaning performance, ensuring greater efficiency.

## SUSTAINABLE DESIGN

Powered by a water-cooled Kubota D902 diesel engine with E-TVCS, the Series 2 delivers lower emissions, quieter operation, and improved fuel efficiency for efficient jetting.

## SAFER OPERATIONS

An intuitive push-button control panel makes operation simple and efficient, while the 7-channel remote enhances safety by allowing full jetter control from a distance.

## FLEXIBLE FINANCE

A range of finance options are available to help spread the cost of the jetter, the vehicle, interior conversions and additional equipment.

## REQUEST A QUOTE

Tel: 03300 240404 Email: [sales@andyguestjettters.co.uk](mailto:sales@andyguestjettters.co.uk)

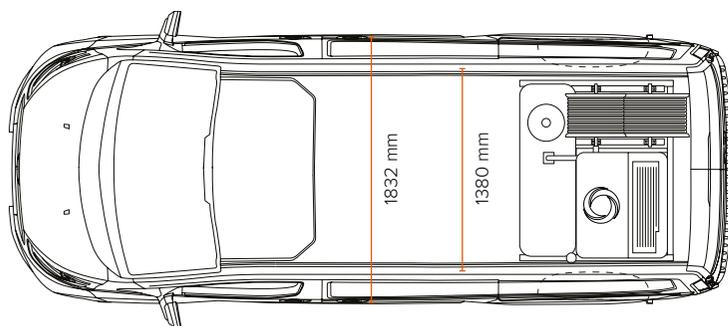

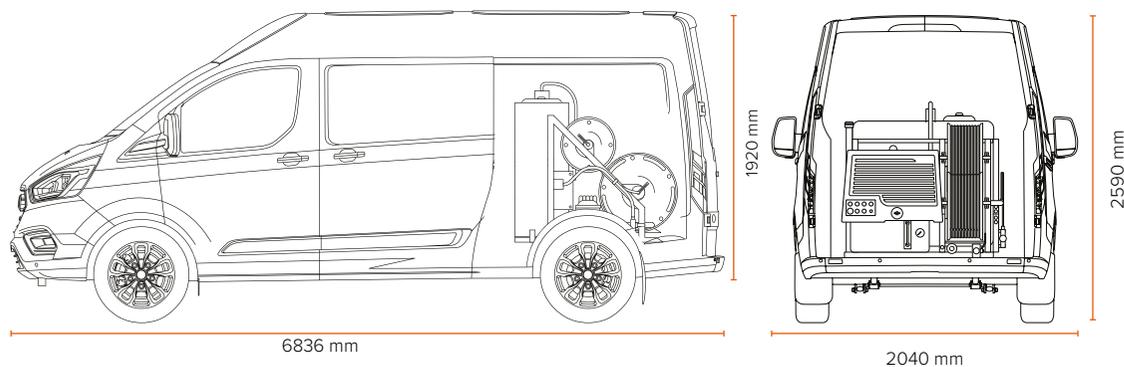

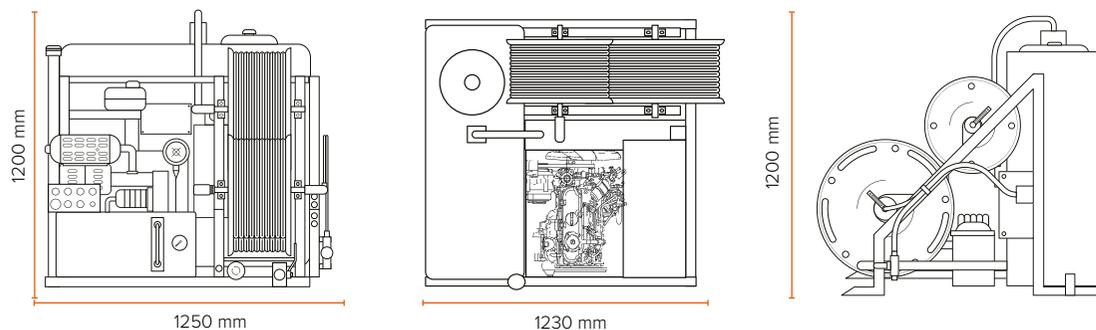

## READY-TO-WORK ALL-DAY DIESEL

Supplied as a complete system, the Series 2 comes with the option of an extra 500L tank, integrated hoses, push-button control panel, a 7-channel remote, and standard nozzles, so you can get to work straight away. Additional upgrades include larger water tanks, jetting lances, and specialist nozzle kits to match your workflow.

# SERIES 2 DIMENSIONS

## EXAMPLE VAN: FORD CUSTOM VAN L2H2

Width between Arches	1351 mm
Vehicle Length	5340 mm
Vehicle Height	2300 mm
Vehicle Width	1986 mm
Load Length	2921 mm
Load Height	1778 mm

# SERIES 2 SPECIFICATION

Pipework Diameter	< 300mm
Performance	3000psi @ 9gpm (200 bar / 4.1 lpm)
Water Tank Capacity	400 Litres (88 Gallons)
Engine	Kubota D902 24hp Diesel
Pump	Triplex Plunger Pump
Run Dry Protection	Standard
HP Reel	Hydraulic / 80m
Filling Hose	20m
Control Box	Push Button Control Panel
Included Accessories	Nozzle Kit
Approx. Dry Weight	350kg
Dimensions (mm)	1230mm D x 1250 W x 1200 H (standard tank)
Warranty	12 Months (Terms and Conditions Apply)
Remote Control	7-Channel
Free Fall	Standard
Warranty	12 Months (Terms and Conditions Apply)

## UPGRADES + OPTIONS

- Tank Capacity (650 or 800 Litres)
- Extra Water Tank (500 Litres)
- Lightweight Jetting Hose
- Safety Lance and Dry Shut Lance
- Specialist Nozzle Kits
- Surface Cleaning Equipment

# SERIES 3 VAN-PACK JETTER

**PETROL-POWERED.  
HIGH-PERFORMANCE.  
FUEL-EFFICIENT.**

The Series 3 delivers powerful jetting performance in a lightweight, fuel-efficient design, making it the smart choice for contractors operating in urban and low-emission environments. Compact and cost-effective, it's powered by a high-output Vanguard 37hp EFI petrol engine, offering lower running costs, cleaner emissions, and quieter operation than diesel machines.

*"The performance is exceptional. Its not only lighter and more fuel efficient, but compares well to diesel-powered machines."*

**DANAHER AND WALSH GROUP**

 **3000PSI @12GPM**

- 37hp Vanguard EFI petrol engine
- Lightweight and compact footprint
- Lower fuel costs and emissions
- 7-Channel Radio Remote as standard
- Ideal for commercial work
- Fits most medium vans with space to spare

## SMARTER POWER

At the heart of the Series 3 is a V-Twin engine with a closed-loop EFI system. This advanced technology improves cold starts, fuel economy, and real-time power response.

## LIGHTWEIGHT DESIGN

Weighing less than comparable diesel units, the Series 3 is ideal for small commercial vans. Its compact footprint leaves room for larger water tanks, tools, and ancillary equipment.

## LOW-EMISSIONS

Ideal for city centres and ecologically sensitive areas, the petrol engine meets modern emission standards without sacrificing power - giving you a cost-effective alternative to diesel.

**12** [andyguestjettters.co.uk](http://andyguestjettters.co.uk) | 03300 240404

## FLEXIBLE FINANCE

A range of finance options are available to help spread the cost of the jetter, the vehicle, interior conversions and additional equipment.

## REQUEST A QUOTE

Tel: 03300 240404 Email: [sales@andyguestjettters.co.uk](mailto:sales@andyguestjettters.co.uk)

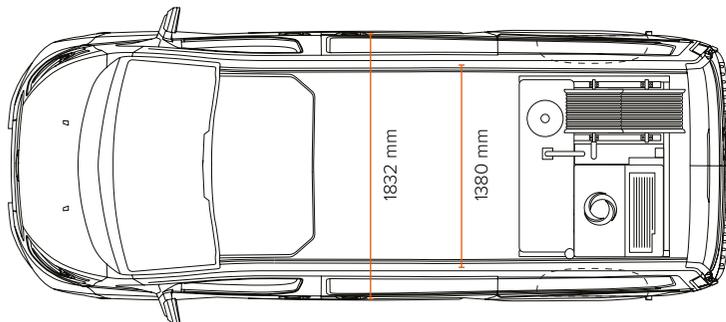

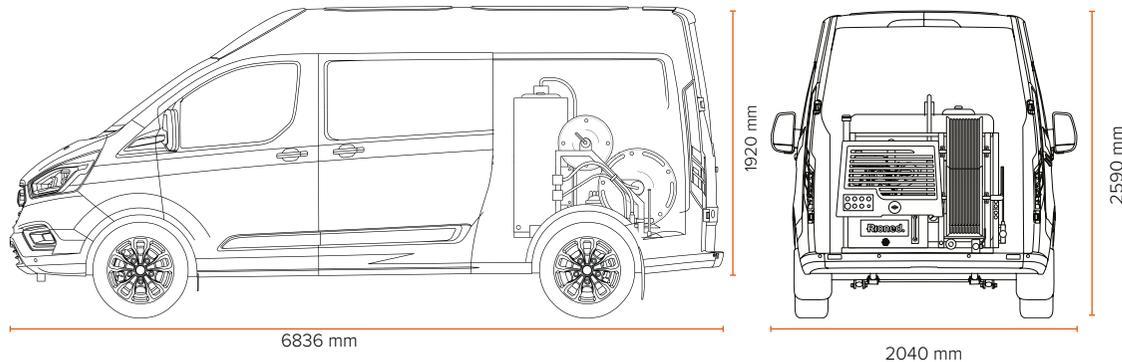

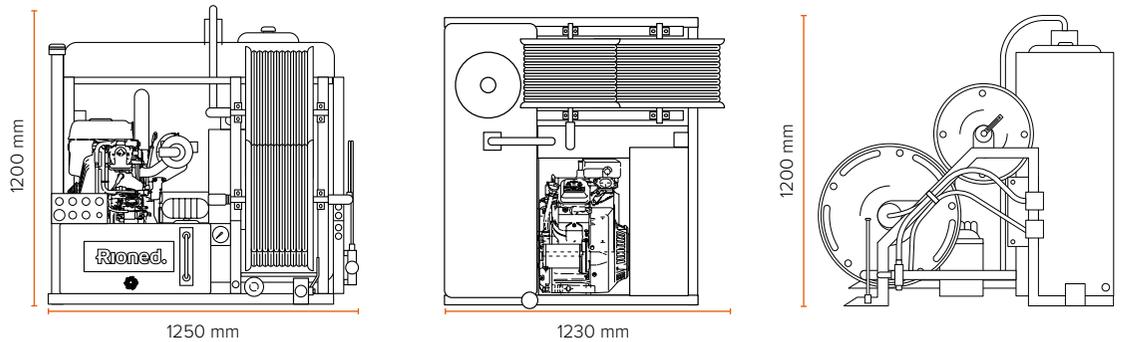

## READY-TO-WORK ESSENTIAL POWER.

Supplied as a complete system, the Series 3 comes with a jetting hose, safety leader hose, and standard nozzles, so you can get to work straight away. Additional upgrades include radio, remote control, larger water tanks, jetting lances, rotating nozzles, and surface cleaners to match your workflow.

# SERIES 3 DIMENSIONS

## EXAMPLE VAN: FORD CUSTOM VAN L2H2

Width between Arches	1351 mm
Vehicle Length	5340 mm
Vehicle Height	2300 mm
Vehicle Width	1986 mm
Load Length	2921 mm
Load Height	1778 mm

# SERIES 3 SPECIFICATION

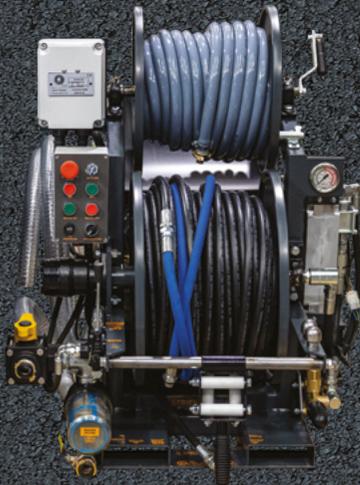

Pipework Diameter	< 350mm
Performance	3000psi @ 12gpm (200 bar / 54 lpm)
Water Tank Capacity	400 Litres (88 Gallons)
Engine	Vanguard 37hp EFI V-Twin Petrol Engine
Pump	Triplex Plunger Pump
Engine Cooling	Water-Cooled
Run Dry Protection	Standard
Frost Protection	Unloader & Anti-freeze Valve
HP Reel	Hydraulic Drive HP Reel
Hose	80m Single-wire Lightweight Hose
Reel Arrangement	Integrated Filling Reel
Filling Hose	20m Reel
Control Box	Electric Push Button Control Panel
Remote Control	7-Channel
Included Accessories	Nozzle Kit
Approx. Dry Weight	350kg

Warranty	12 Months (Terms and Conditions Apply)

## UPGRADES + OPTIONS

- Tank Capacity (650 or 800 Litres)
- Lightweight Jetting Hose
- Safety Lance & Dry Shut Lance
- Specialist Nozzle Kits
- Surface Cleaning Equipment

# STANDARD STACK SYSTEMS

The Series 2 and Series 3 van-pack machines are available as compact and lightweight stack systems designed for multipurpose CCTV/lining vehicles and smaller commercial vans. These units deliver the same level of performance and specification as a conventional van-pack, while occupying less than half the width, enabling contractors to maximise vehicle access, space and overall payload capacity.

## SERIES 2 STACK JETTER

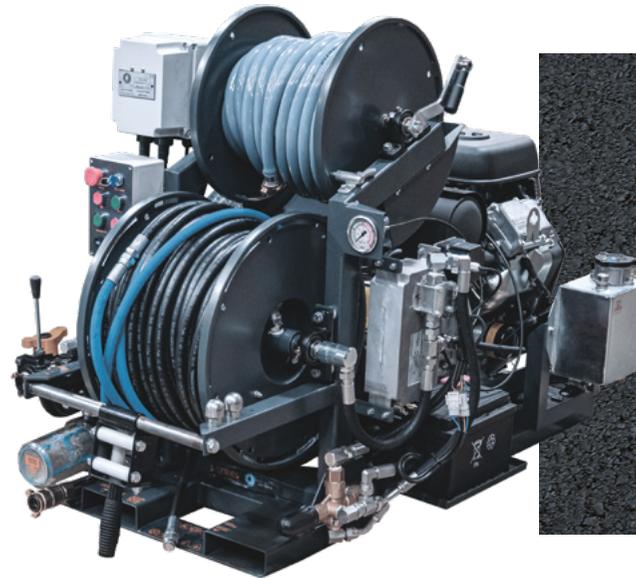

Pipework Diameter	300mm
Performance	3000psi @ 9gpm (200 bar / 41 lpm)
Engine	Kubota D902 Diesel - 24hp
HP Pump Type	Triplex Plunger Pump

## SERIES 3 STACK JETTER

Pipework Diameter	300mm
Performance	3000psi @ 12gpm (200 bar / 55 lpm)
Engine	Vanguard EFi V-Twin Petrol - 37hp
HP Pump Type	Triplex Plunger Pump

# BESPOKE JETTING EQUIPMENT

Our in-house manufacturing and engineering expertise allow us to design and build bespoke jetting systems tailored to specific operational needs. Custom configurations, performance options, and flexible installation solutions ensure optimal efficiency, reliability, and vehicle handling across a wide range of applications.

# BUILT FOR MULTIPURPOSE VEHICLES.

*“We’re impressed with the Series 3 Stack Jetter. It’s powerful for the size and allows for re-lining equipment in the van.”*

**DYNO ROD**

## COMPACT DESIGN

- Same performance as conventional van-packs
- Bespoke stack and split system builds
- Hot water units and custom mountings
- Flexible pressure and flow configurations
- Independent water tank installation options
- Configurable for regulated environments
- Radio remotes included as standard

## DESIGNED FOR YOU

Our technical and sales teams are on hand to offer clear advice on the most suitable configuration of a stack or split system and how best to maximise the internal layout of the van. Contact us for more information.

# REMOTE JETTING HOSE REEL

Remote Reels are manufactured to meet operational requirements in a wide range of configurations, including tracked, wheeled, and dumper formats. The unit is suited to high-pressure jetting in restricted-access sites where a conventional water supply is limited, or pressure sensitive ground, such as sports fields, gardens and golf courses.

## 19 HP ENGINE

- Tracked 1m Wide Undercarriage
- Custom-Made Frame Assembly
- Holds 200 metres of 3/4" jetting hose
- LED Beacon, 2 x LED Work Lamps
- 750kg Excluding Jetting Hose
- Easy-to-use control panel
- Low ground pressure

**VERSATILE.  
ROBUST.  
ADAPTABLE.**

*"Using the new tanker with the remote reel means a lot easier access to the most difficult sites"*

**DAVE ROYLE | MANTANK**

## ELECTRIC OPTION

Alongside the standard drive, Remote Reels are available with an electro-hydraulic system powered by an electric motor, providing a clean, efficient solution for indoor or regulated environments where combustion engines are prohibited.

# REMOTE REEL SPECIFICATION

Undercarriage	Tracked 1m Wide Undercarriage
Engine	Kohler Kdw702 Twin-cylinder 16.5hp Diesel
HP reel	Reel Capacity – 250M 1" Jetting Hose
HD hose reel	Hydraulic Hose Reel
Construction	Custom Made Frame Assembly
Colour	Custom RAL Colours available
Lights	180° LED Amber Flashers, 2 x LED Work Lamps
Approx. Dry Weight	750kg Excluding Jetting Hose
Additional Features	Hose Guide, Pressure Gauge, Reel Tip Indicator

## UPGRADES + OPTIONS

Wheeled Versions Available

Various Size Hose Reels

Configurable Undercarriage Widths

Thermoplastic Jetting Hose (Various Specifications Available)

Braked Drive Motors (In Lieu of Valve Drive Arrangement)

Seat with Seatbelt and Anti-Roll Cage

Twin Axle Transportation Trailer

Low Emission, Electro-Hydraulic Reel Systems

Reel Assembly can be in Corporate Colours

Transportable Hydro-Coiler Available for use with Pipe Breaking System

Hydraulic Front Stabiliser Bar

1.2m, 1.5m and 2.0m Wide Reels

Electro-Hydraulic Drive System for Use Indoors

Radio Remote Control

# HIGH-PRESSURE NOZZLES

We stock a comprehensive range of jetter nozzles including fixed, rotating and specialist nozzles for the toughest drain and sewer cleaning tasks. All nozzles are supplied with free shipping and guaranteed next-day delivery.

## FIXED NOZZLES

Fixed nozzle are also known as flushing or penetrating nozzles depending on the configuration of the jets. Narrow rear jets offer more thrust to propel the nozzle down the pipe, whereas wider jets help flush debris.

### AG RECOMMENDED

Best for flushing: **Bullet**  
Best for unblocking: **Bomb Jet**  
Best for fast cleaning: **High Efficiency**

## ROTATING NOZZLES

Rotating jetting nozzles feature heads or jets that spray in all directions. They are considered the best multipurpose drain cleaners and are often used on tougher unblocking and maintenance contracts to prevent future blockages.

### AG RECOMMENDED

Best for root removal: **Tarantula**  
Best for clearing: **Wipe Catcher**  
Best all-round: **Allien Turbo**

## SPECIALIST NOZZLES

Specialist nozzles can be used for a range of tasks, such as desilting, root-cutting or the removal of deposits such as oil and grease, and are often used alongside fixed or rotating nozzles for optimum results.

### AG RECOMMENDED

Best for desilting: **Plough Jet**  
Best for maneuverability: **Anaconda**  
Best all-round: **Breaker**

# SELECTED NOZZLE KITS

## BUNDLE & SAVE WITH KITS

More cost-effective than purchasing individual nozzles, our standard and specialised kits are hand-selected based on feedback from customers.

- **AG STANDARD** Three essential nozzles the Bomb Jet, Plough Jet, and High-Efficiency
- **AG MAXI HE**, Vampire, Plough, Breaker, Button and Anaconda.
- **AG MAXI XL HE**, Rotating, Vampire, Bullet, Anaconda, Breaker, Wipe Catcher, Plough Jet and Bomb Jet nozzles.

# HIGH-PRESSURE HOSES & KITS

## LIGHTWEIGHT HP HOSE

The AG Lightweight Hose combines a flexible rubber alloy and a single steel inner shell for extra strength, durability and lifespan. The hose is much lighter than standard hoses, and is designed to reduce pressure loss for greater cleaning power.

- Available in 3/8", 1/2" and 5/8" Coupling Diameters
- 50m, 60m, 80m and 100m Lengths
- Screw Nipple Standard Threaded Coupling
- WP/BP 280/700 BAR
- ISO7751 Accredited

# SPRAY GUNS & LANCES

We supply a range of spray guns, lances and nozzles for the rapid cleaning of large surface areas or removing concentrated deposits.

We supply hoses for all aspects of drainage and sewer work, including lightweight single-wire hoses specifically designed for sewer cleaning, mini hose kits and thermoplastic hoses.

## LEADER HOSE

Available in 3m or 5m lengths, the Leader Hose warns that the nozzle is close to the pipe entry.

## MINI HOSE KIT

This small bore 1/4" kit is supplied with a Standard Nozzle and 1/2" BSP male adaptor.

## TRICOFLEX HOSE

The Tricoflex hose remains flexible in low temperatures. The outer layer of the hose is UV and abrasion resistant.

## SUCTION VENTURI

The Suction Venturi empties flooded cellars by connecting to the jetting hose to create a vacuum.

# RADIO REMOTE UPGRADES

The Andy Guest 7-Channel Radio Remote Control is designed to withstand everyday use in the toughest conditions. The latest remote control bundles have been designed to plug and play with our range of Stage V jetters and retrofitting options are available.

- Transmitter Unit
- 433Mhz - 915Mhz Frequency
- IP65
- Receiver Unit
- External Antenna
- External Li-ion battery
- Pouch with Belt
- Battery Charger

# TOOLS & PARTS

We stock a wide variety of drain tools and spare and replacement parts for use across our range of jetting machines. Parts are available for next-day delivery via the webshop or trade counter.

# EQUIPMENT RENTALS

RioHire offers flexibility for contractors renting equipment on a short-term basis to meet increased demand or undertaking a contract over a longer period.

Customers also choose rentals as a method of testing demand before purchasing. With a simple hire process, our operation-ready, industry-compliant solutions represent a great way to begin your journey.

We have a variety of units available, including van-packs and 7.5t jetvac combination units for a complete range of drain and sewer jetting and suction tasks.

Rental equipment is available for same day collection or can be delivered to customer sites by arrangement.

With a simple hire process and full maintenance cover, RioHire from Andy Guest's sister company, Rioned, makes it easier than ever for drainage contractors to add extra capacity to their fleets.

## OPERATION-READY MACHINES

## JETTING VEHICLES

RioHire vehicles are typically a Ford Transit LWB (or similar) with bulkhead separating the front and rear cargo area. All hire vehicles include beacons and LED interior lights, racking, storage, an inverter, night heater and welfare kit.

### JETTER SPECIFICATION

- Rioned Jetter with Remote and eControl+ machine management
- 3000psi Jetting Capacity
- 600 Litre Water Tank
- Radio remote control

## 7.5T JETVAC COMBIS

Rioned Jetvac combination tankers are a powerful, compact solution ideal for city streets, urban areas or sites with limited access. Available on long and short-term rental agreements, jetvacs comply with all emissions regulations.

### JETVAC SPECIFICATION

- Suction Capacity: 8300lpm
- Jetting Capacity: 2200psi @ 22gpm
- 3000 Litre Water Tank
- Secure shuttered storage

# WJA-APPROVED TRAINING

All Andy Guest training courses are Water Jetting Association (WJA) approved, City & Guilds certified, and delivered at Andy Guest's dedicated training facility in Keighley and Rioned's base in Thetford.

The WJA is the UK's leading authority for water jetting training, setting the benchmark for safety, skills, and operational standards across the industry.

Standard courses are delivered over two days, with Day One covering Safety Awareness and Day Two focused on Drain & Sewer Cleaning. Successful candidates are registered on the WJA database and issued with a certificate and WJA photo ID card. To maintain registration, operatives must refresh their Safety Awareness training every three years.

For course dates and further information, get in touch or visit the website.

Our trade-in scheme lets you unlock the remaining value in your existing jetter, even if it's well-used. We accept Andy Guest machines and jettors from other manufacturers, offering a fair, competitive valuation and a hassle-free process with no private selling or logistics to manage. You can put that value towards a new, more efficient machine, with flexible finance options available to include conversions and additional equipment.

Find out how much your jetter is worth and start your upgrade today at [www.andyguestjettors.co.uk/trade-in](http://www.andyguestjettors.co.uk/trade-in)
