MACHINE MANAGEMENT BUILT-IN

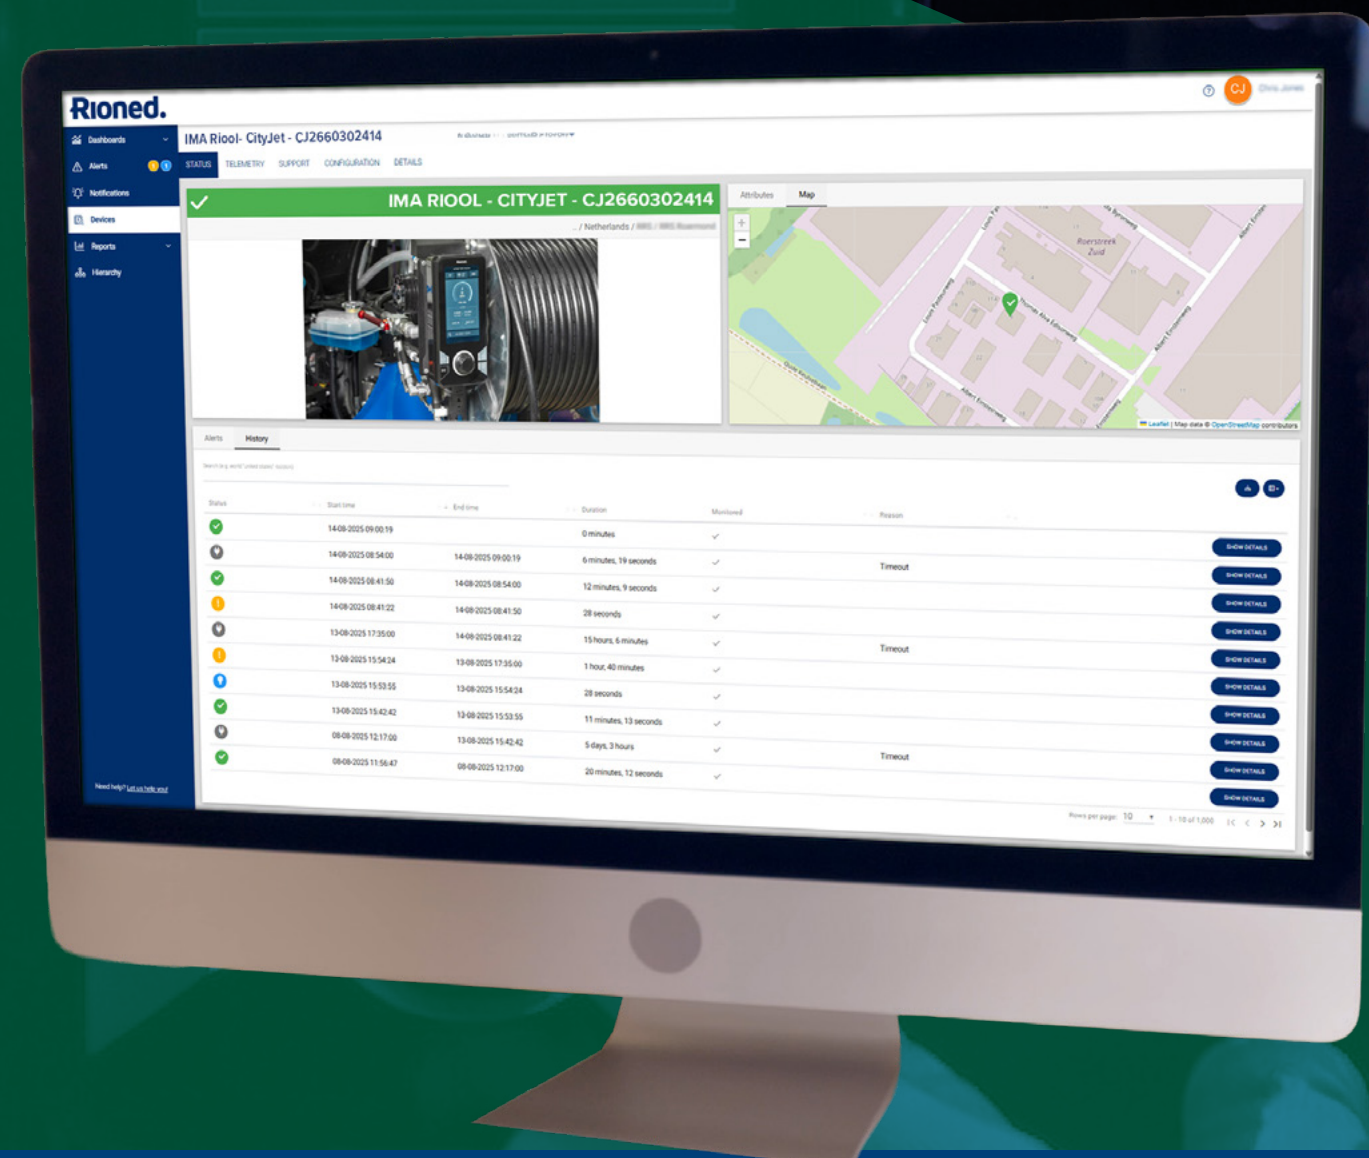

ENHANCED CONTROL VIA

- 1. eCONTROL TOUCH**
- 2. RIOMOTE WITH LCD**

The eControl Touch provides clear machine information and intuitive control. Operators can view data, diagnostics and key operating information on the 7" touchscreen, with essential details also relayed to the LCD screen on the new RioMote.

RioConnect.

FROM THE DRAIN TO THE DEPOT

A SECURE CLOUD-BASED PLATFORM - ACCESSIBLE ANYTIME, ANYWHERE

Fleet managers now have a remote view of how machines are used in the field.

- Machine location
- Operating hours
- Usage data
- Performance data
- Machine status
- Fleet overview

RioConnect.

HOW IT WORKS

Now included with every new CityJet:

- Integrated SIM card
- Live machine data
- Cloud Portal access
- First Year of RioConnect FREE

Machine data is transmitted directly to the RioConnect portal - no integration with your internal IT systems required.

Live data of machine activity, usage patterns and location, supporting better scheduling, maintenance planning and operational control.

RioConnect helps teams act sooner, with custom email alerts that support faster response.

Secure cloud platform

Real-time & historical data

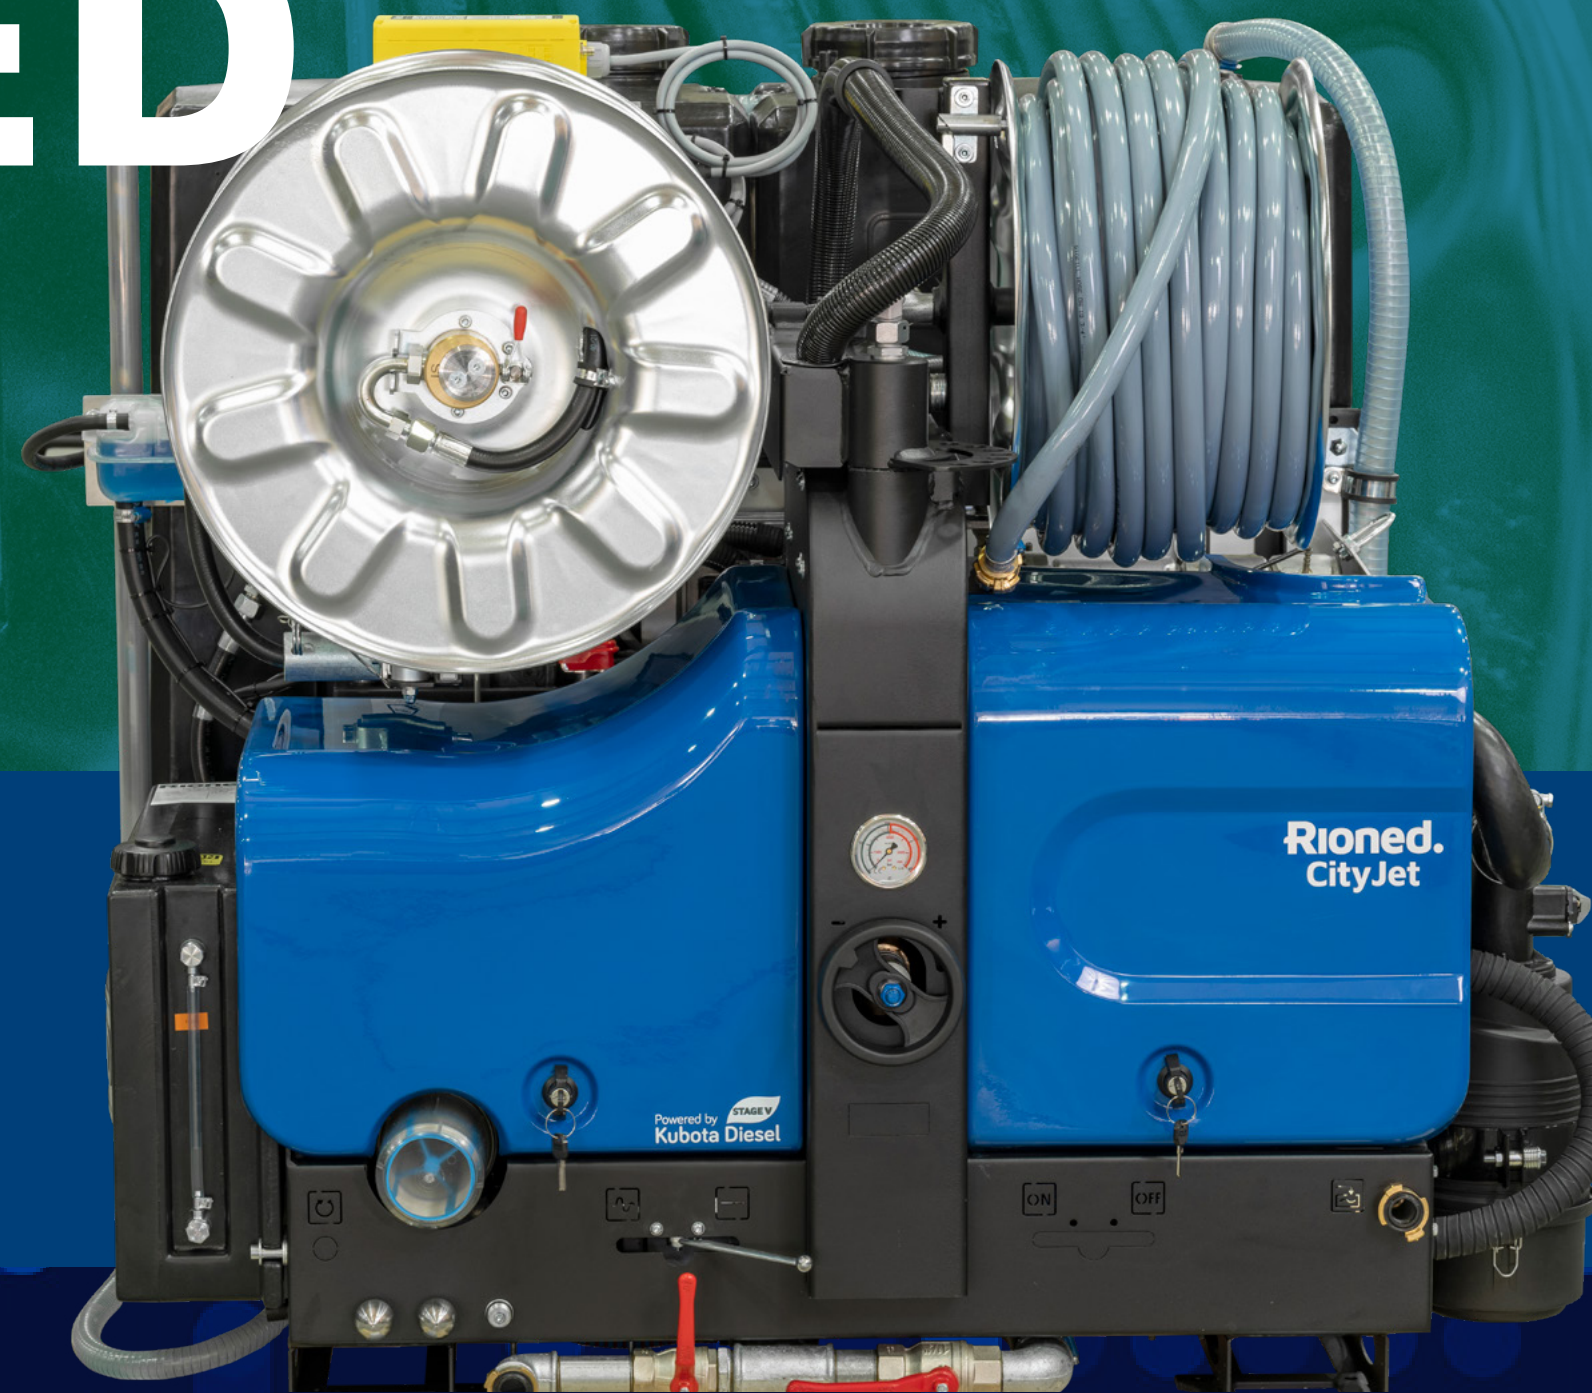

Works via on-board SIM gateway

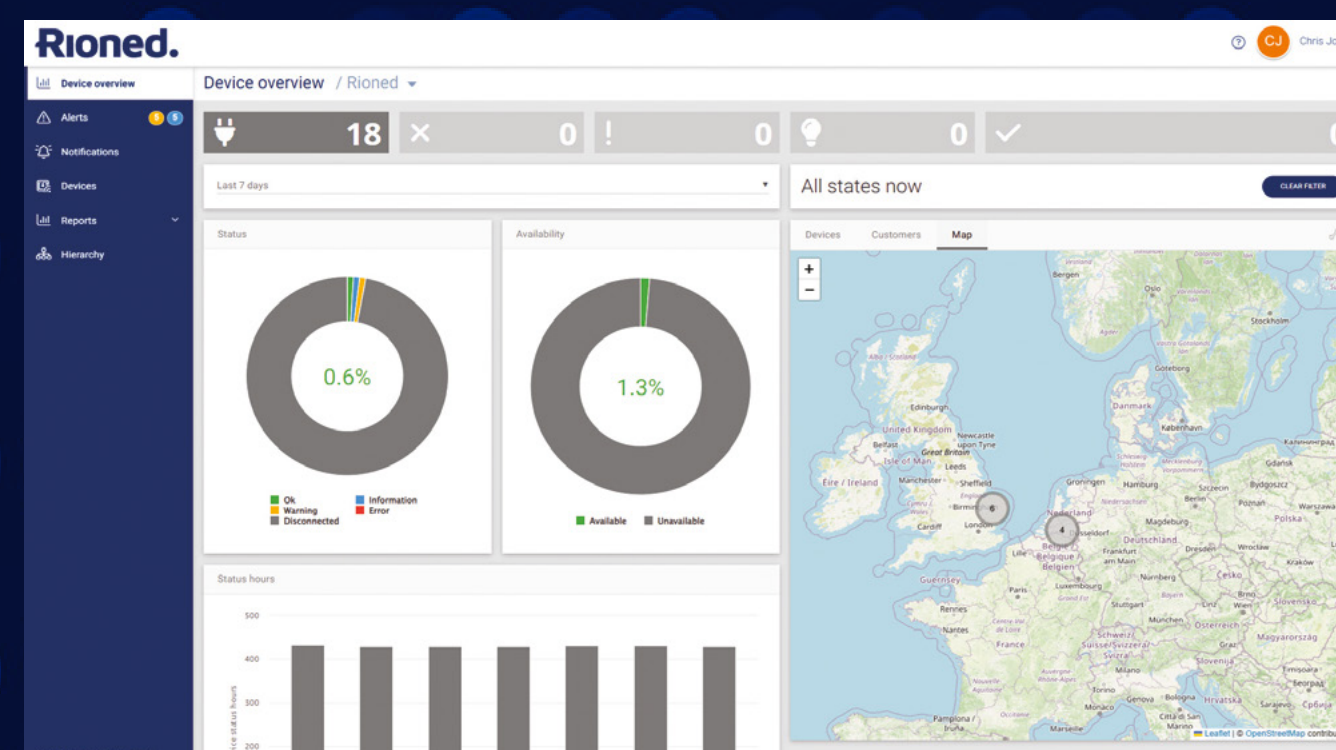

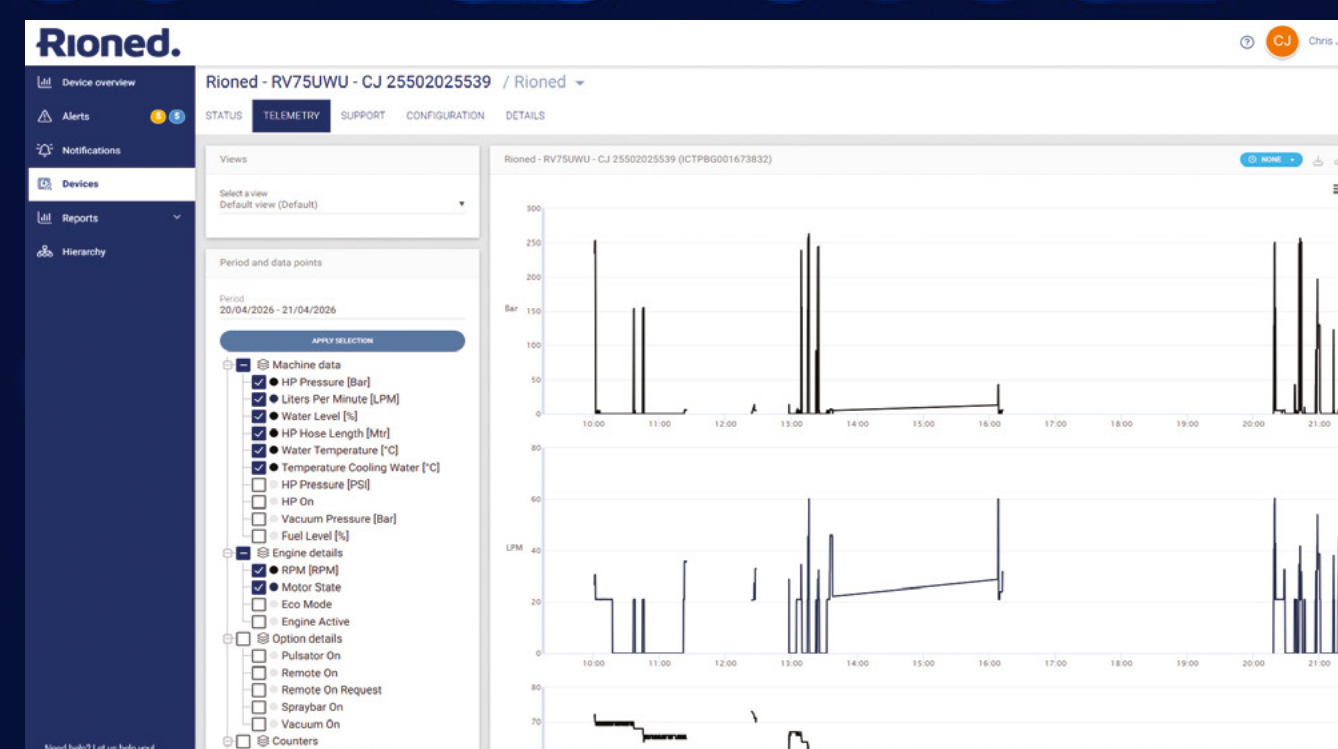

Single or Multiple Tracked Machines

THE NEW STANDARD IN CONNECTED JETTING

BOOK YOUR CITYJET DEMO

Experience proven jetting performance, advanced control and connected machine monitoring with the CityJet. With RioConnect now included as standard, every new CityJet helps contractors work smarter, manage with confidence and build a more connected fleet.
